

### **Perpetuum Mobile Quality Policy**

Perpetuum Mobile's main goal is to build and maintain long-term business relationships with domestic and foreign partners by ensuring high-quality standards in computer programming. The company's vision is to become a leading Croatian company in providing web, business, and mobile solutions and applications, with a significant expansion into international markets. This will be achieved through knowledge, innovation, and reliability.

The company will achieve its goals by:

- Aligning the quality management system with the company's strategic goals.
- Defining employee responsibilities and ensuring they are met.
- Implementing and continuously improving the effectiveness of the quality management system in accordance with the ISO 9001:2015 standard.
- Applying legal and regulatory obligations.
- Monitoring and applying new technologies and educating employees.
- Carefully selecting and evaluating suppliers.
- Meeting and exceeding customer needs and expectations.
- Continuously improving the quality management system, viewing it as a cyclical process.

The Chairman of the Board is responsible for communicating the Quality Policy to everyone working for or on behalf of the company and making it available to relevant stakeholders.
